¹ The river began as a trickle far up the mountainside, gathering strength from
² every rivulet it passed. By the time it reached the valley floor it had become a
³ broad, unhurried current, carrying silt and story alike toward the sea.
⁴ Fishermen along its banks spoke of it the way one speaks of an old friend:
⁵ familiar, a little unpredictable, always worth watching.

A Field Guide to Rivers, by J. Rivers (p. 12)

See **Figure 1** for the full diagram.

Diagram: Proof Suite

Remember

- ☐ Read the passage carefully
- ☐ Label the diagram
- ☐ Show your work

1. Identify the source
 2. Trace the tributaries
 3. Mark the delta
-

Mix **bold** and *italic* words in the second half of the proof document.

1. Problem 1. Solve and show your work.

2. Problem 2. Solve and show your work.

3. Problem 3. Solve and show your work.

4. Problem 4. Solve and show your work.

5. Problem 5. Solve and show your work.

6. Problem 6. Solve and show your work.

7. Problem 7. Solve and show your work.

8. Problem 8. Solve and show your work.

9. Problem 9. Solve and show your work.

10. Problem 10. Solve and show your work.
